

# Configuration of high-latitude and high-altitude boundary layers

Tim Eastman, Plasmas International, Silver Spring, Maryland

Scott Boardsen, Raytheon STX, NSSDC, NASA/GSFC

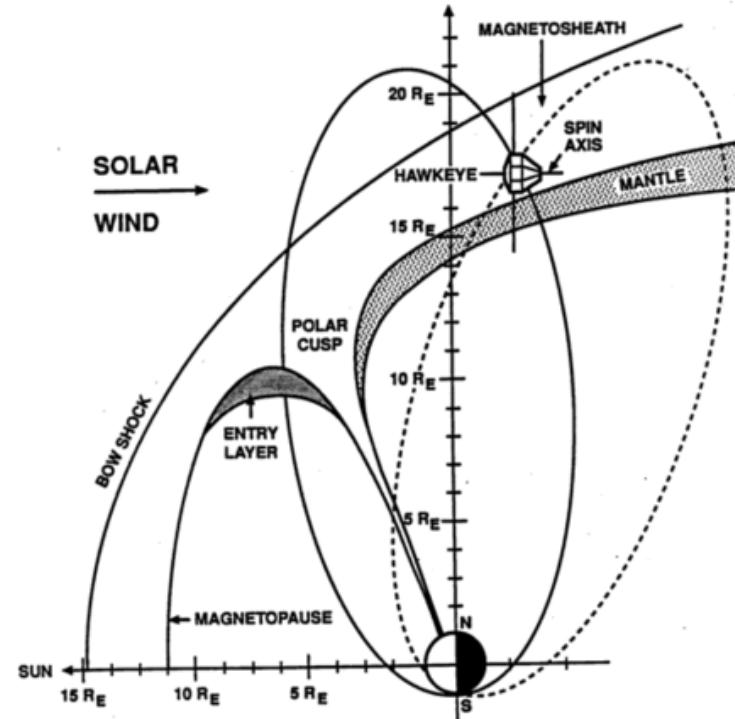

Hawkeye spacecraft measurements 1974-1978

1757 cusp and boundary layer crossings

2248 magnetopause crossings

semiempirical magnetopause model

Acknowledgements: We thank the National Space Science Data Center (NSSDC) for supplying the Haweke, OMNI, and IMP-8 data. We also thank J. A. Van Allen, L. A. Frank, and D. A. Gurnett for making the Hawkeye available to NSSDC. Research support provided by NASA and NSF.

Presented at the 7th biannual Huntsville Workshop, Calloway Gardens, 10/30 - 11/3/00
